

## TMO190 Open-frame Touch Monitor

### Product Brief Introduction

Chengdu Vantron offers open-frame touch monitors that vary in screen size from 10.1 inches to 27 inches and resolution from 1280 x 800 to 1920 x 1080. When used with Vantron industrial panel PCs, such touch monitors will offer more resolutions for customers to meet the requirements of application in different scenarios such as industrial control, health care, education, retail, transportation, and finance.

TMO190 open-frame touch monitor applies 19-inch screen and features quick response time, large visible area and viewing angle to optimize the display performance. The screen is designed to be anti-fingerprint, and users have the option to equip the touch screen with anti-glare and anti-reflection coatings that offer excellent visual experience and improve human-machine interaction accuracy. Moreover, TMO190 offers flexible installation options and OSD controls to enhance user experience.

### Exterior and Features

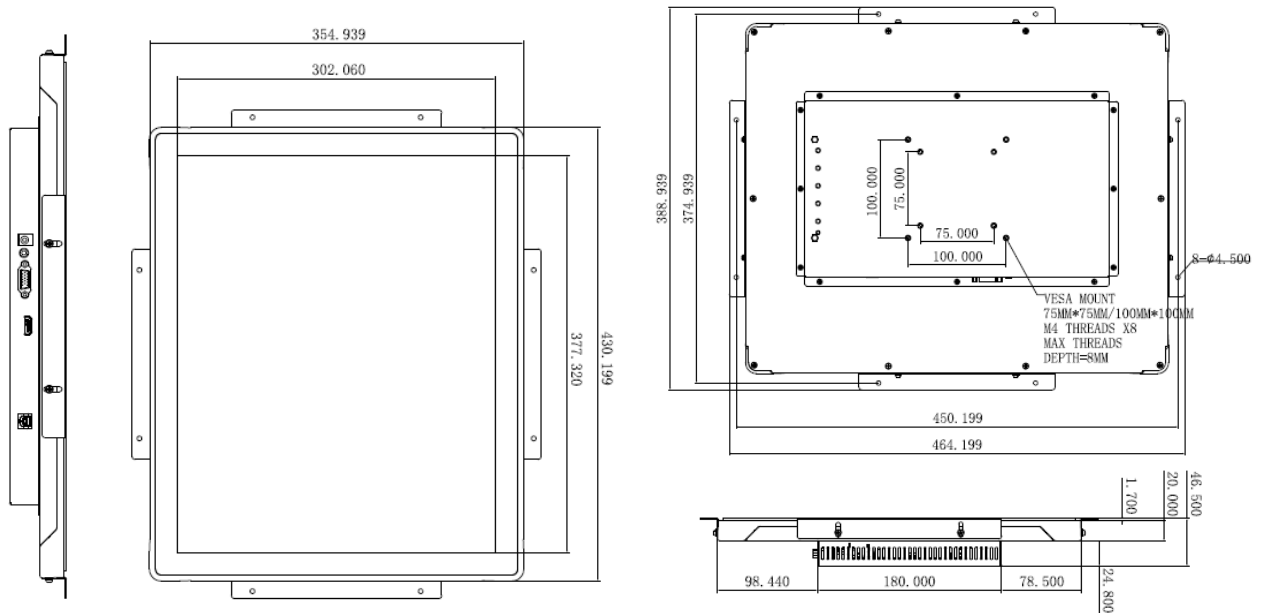

#### TMO190

-  19.0" TFT LCD, 10-point PCAP touch screen
-  High contrast ratio, broad active area
-  AR/AG touch screen available
-  Flexible installation
-  Excellent longevity (50,000H MTBF)
-  Compact design, easy integration

**TMO190 Datasheet**

TMO190		
<b>Display</b>	Diagonal size	19.0" TFT LCD with LED backlight
	Aspect ratio	5:4
	Resolution	1280 x 1024
	Brightness	250 nits
	Active area	377.32mm × 302.06mm
	Contrast ratio	1000:1
	Number of colors	16.7 million
	Response time	15ms
	Viewing angle	Horizontal: 170° Vertical: 160°
<b>Touch panel</b>	Touch point	10-point PCAP touch screen
	Touch control	Finger, stylus pen
	Cover lens thickness	3mm
	Surface treatment	Anti-fingerprint, tempered glass (Optional: Anti-glare / Anti-reflection)
	Light transmittance ratio	>85%
	Touch communication interface	USB 2.0
<b>Video</b>	Video interface	1 x VGA 1 x HDMI
	<b>Audio</b>	Audio interface
<b>Mechanical</b>	Dimensions	430.20mm x 354.94mm x 46.50mm (without brackets)
	Weight	4.6kg (net)
	Installation	VESA mount (100mm x 100mm, 75mm x 75mm) Side bracket mount
	OSD	Built-in OSD (set up with OSD keys) Controls: Menu, Up, Down, Select, Power
<b>Software</b>	Power input	12V DC adapter
	Power consumption	<18W
	Language	Chinese and English
	Adjustment of brightness, contrast ratio and color temperature	Supported
<b>Environment Condition</b>	Temperature	Operating: 0°C ~ +40°C Storage: -20°C ~ +60°C
	Humidity	RH 10%~90% (non-condensing)
	MTBF	50,000 hours
	Warranty	3 years
	ESD	ESD: ±4KV (contact) and ±8KV (air)
	Certificate	CCC, FCC, CE, UL

## Product Outlines

## Accessories and Order Information

Accessories		
TMO190	Power cable	1 pc
	Adapter	1 pc
	Mounting brackets	1 kit
	USB cable	1 pc
	HDMI/VGA cable	1 pc for each

Order Info	TMO190
-x	-1: Anti-glare (AG) -2: Anti-reflection (AR) -3: AG + AR treatment
Example	TMO190-1: Anti-glare touch panel

## Company Profile

Since 2002 established by two Silicon Valley entrepreneurs, Vantron Technology has been a pioneer in connected IoT devices and IoT platform solutions. Today, Vantron serves countless customers all over the world, some of them are Fortune 500 companies. Products lines cover edge intelligent hardware, IoT communication devices, industrial displays and BlueSphere cloud device management platform.

Vantron has 20 years of experience in R&D of embedded edge intelligent hardware like SOM board and motherboard, and provided users with various embedded solutions with ARM and X86 architecture. From Linux to Windows, from embedded to desktop level, from gateway to server. At the same time, we provide our users with system clipping, driver transplantation and other services.

Vantron IoT communication devices support multi-protocol connection of industrial equipment, edge computing of local data. Abundant wired and wireless connectivity make remote operations and maintenance possible. From electricity and transportation to smart retail, medical and warehousing, Vantron IoT communication device can be deployed anywhere in any business section. Vantron believes its IoT solution to help many companies finish their digital transformation, efficiency of manufacturing and productivities have been improved significantly.

Vantron industrial display systems, ARM and X86 series, are equipped with Rockchip, NXP, MediaTek, Intel and other high-performance processors. It supports various operating systems such as Windows, Linux, and Android. Diverse wireless communications keep your device online all the time. Multiple installation methods make it suitable for a variety of application scenarios. Features like waterproof, dustproof, shatter resistant guarantee the best performance in any environment.

Vantron BlueSphere device management platform, a software product, is playing a big role in Vantron overall IoT solution. Today, Vantron puts more focus on offering complete cost effective, leading-edge yet reliable solutions to help customers carry out their visions.
